

Thesis committee meeting

After talking to Bianca Lindorfer. There is no form that you should use. This means you write as a

Header: date and location where the meeting took place and names of attending persons.

Followed by:

- Summary of the last year: experiments (lab work, used techniques...), lectures you heard and summer school or conferences you visited (poster, talk..). What happened last year what went according to the plan and which targets could not be reached and why. (You should discuss this at the meeting to get feedback from your committee).
- Next steps. What conclusion did you draw from the last year experiences. What experiments are planned and why. What techniques are you going to use, what lectures are you going to hear. Are you planning to go somewhere (summer school, workshops, conferences...)? What co-operations with other researchers are planned and why? Publications?
- Input from the supervisor/committee members

Signed by all.
